Barnard psychology courses and transfer credit: With your DUS's approval, one Barnard psychology course, but not more than one, may be applied toward the P1, P3, P4, or P5 requirement. Alternatively, you may petition your DUS to have one course from another institution applied toward the psychology portion of your N&B major. For details, please see the Psychology Website's Degree Requirements section.

Lists of courses approved for the P4 and P5 requirements are available on the Psychology Website's Degree Requirements section.

^{*} Students who have already taken UN1010 Mind, Brain, & Behavior should not take UN2430 as the content of the courses overlap significantly. Please refer to our overlapping courses section on our website.
