

The Neurocognition, Early Experience and Development (NEED) Lab

Research Projects

The Neurocognition, Early Experience and Development (NEED) lab, directed by Dr. Kimberly Noble, is seeking volunteer research assistants to assist with study visits with infants and toddlers.

Qualified applicants will:

- Be bilingual and bicultural native speakers of English and Spanish
- Be able to commit to:
 - at least two semesters of research experience
 - 10 hours a week during the academic year & 10-20 hours per week during summer terms

If interested, please fill out this [survey](#).
